

HY LAKE  
GOLD INC

PDAC 2011

CNSX: HYL Frankfurt: HYK

## Investment Highlights

- Three historical gold properties with past production in the Red Lake Gold Camp. Red Lake is the high grade gold capital of the world and has produced over 30 million ounces of gold.

- The Mount Jamie Mine and Red Summit Mine properties are 100% owned. Hy Lake has earned 60% of the Rowan Lake Mine property, as operator, from Goldcorp's Red Lake Gold Mines.

- 3400 hectare property package situated just 20 km west of the richest gold mines in the world. The properties host 3 historical mines with a 12km unimpeded exploration horizon on a major regional deformation structure.

- In one of the safest and mine-friendly jurisdictions in the world, producing nearly 1 million ounces of gold per year.

- Extensive historic and recent drilling on all properties provide excellent targets for future drilling. Targeting study recently completed.

- 6,000 metre initial 2011 diamond drilling program underway at Mount Jamie Mine property.

- Strong untapped exploration potential and significant opportunity to expand current resource estimates both along strike and at depth.

- Successful option and acquisition transactions with operators in the Red Lake Camp including Rubicon Minerals, Claude Resources and Goldcorp. Good opportunities for further property consolidation.

- Near term potential for mine development at Rowan Lake property. Environmental study has begun.

- Move to the TSX Venture Exchange initiated. Will provide greater liquidity for the stock.
